PROFILE

Motivated and detail-oriented Computer Science and Engineering graduate with a solid foundation in full-stack web development, specializing in the MERN stack (MongoDB, Express, React, Node.js). Proficient in designing and implementing dynamic, responsive, and user-centric web applications. Skilled in front-end and back-end development, database management, API integration, and responsive design principles. Experienced in collaborating with teams to develop scalable solutions for real-world problems. Actively seeking a full-time software development role to contribute technical expertise and grow as part of an innovative team.

EDUCATION

B.Tech Computer Science and Engineering 09/2020 – 05/2024
International Institute of Information Technology
CGPA 7.33 Bhubaneswar

CLASS XII 06/2018 – 04/2020
Narayana Junior College
Percentage 96.5 Hyderabad

CLASS X 07/2017 – 04/2018
Dr.K.K.R's Gowtham High School
CGPA 9.0 Hyderabad, India

PROJECTS

Recipe Finder

- Developed a responsive website that allows users to discover and learn how to prepare over 300 recipes.
- Integrated the MEALDB API to fetch recipe data dynamically.
- Designed a user-friendly interface for seamless navigation using HTML, CSS, JavaScript, and React.js.

Movie Finder

- Built a movie discovery platform to enable users to search and curate playlists with up to 1,000 movies per day.
- Implemented features like detailed movie information, including synopsis, cast, and ratings, as well as user authentication for secure access.
- Developed playlist functionality with options to create, update, delete, and share playlists (public and private visibility).
- Utilized the MERN stack and integrated the OMDB API for real-time movie data retrieval.

Form Maker

- Designed a web application for creating customizable forms, reducing paperwork by 90% through efficient electronic data storage.
- Ensured privacy and security with authentication and role-based access control.
- Enabled flexibility in form design by allowing users to add, delete, and reorder questions.
- Delivered a responsive and scalable solution using React.js, Node.js, MongoDB, JavaScript, HTML, and CSS.

SKILLS

Programming skills

- C++
- JavaScript

Databases

- MySQL
- MongoDB

Frontend Technologies

- HTML
- CSS
- ReactJs

Other Skills

- Git
- GitHub

Backend Technologies

- Node.js
- Express.js

SOFT SKILLS

- Problem solving
- Collaboration
- Adaptability
- Continuous Learning

COURSE WORK

Data Structures And Algorithms

Object Oriented Programming

Database And Management System

Operating Systems

CERTIFICATES

- MongoDB Node.js Developer Path
